

Learning Journey: Year 6 Term: Autumn 2

Literacy

We will be basing our writing on "Friend or Foe" and writing in different genres. We will also be completing the 'Cracking Comprehension' unit to develop our skills in reading.

Maths

We will be covering fractions in maths. We will focus on developing our reasoning and problem solving skills to master the curriculum.

Science

We will be learning about evolution and inheritance. We will study fossils and learn about how animals adapt to their environment.

Computing

We will be learning about:
Computational thinking
Digital literacy
E-safety

The Vikings

History

We will find out about WWII and its main events. Our trip to the National Holocaust centre will help us think about the experiences of the people involved in the Holocaust.

Geography

We will be learning about which countries were involved in WWII and their geographical location in the world.

RE

We will be learning about the deeper meanings of Christian and Jewish festivals.

Art

We will be using a range of art techniques to design and produce art that is linked to our WWII topic.

PE

In PE lessons, we will be taking part in outdoor and adventure lessons.

Values and Citizenship

We will be learning about mutual tolerance and respectful attitudes.

Music

As part of the Wider Opportunities Music Scheme, we will be using and understanding the terms beat, rhythm and pitch. We will use the musical staff and notation and assemble and produce a clear note on the clarinet.

Languages

We will be learning a range of French vocabulary and phrases to enable us to write and speak in French about where we live and food.

Design and Technology

We will be planning and cooking a healthy meal using rationed and seasonal ingredients

Visits and Visitors:

The Holocaust Memorial centre (4th November)
