

## **Sports Premium Funding use and impact 2018/19**

We were allocated £17,800 for the academic year 2017/18.

We have been allocated £17,976 for the current academic year 2018/19.

From September 2018 this has been used to provide:-

- Extra PE lessons each week for pupils identified as more able in PE (Year 5 and 6)
- Specialist Sports Coach to deliver extra lunchtime clubs. Different sports and year groups are rotated to maximise opportunity and participation.
- Specialist Sports Coach to deliver extra training sessions for teams competing in tournaments.
- After school clubs such as Dance, Basketball, Football, Athletics, Hockey and Multi-Sports.
- Lunchtime running and athletics club.
- Allocate time for PE leader/ Sports coach to work alongside teachers to improve the quality of teaching and learning in PE in a sustainable manner. This was chosen to be dance as this is a specific requirement.
- Partnership fees to enable participation in tournaments, dance festival etc within the cluster.
- Inclusive sports provision and training for playtime and lunchtime staff in partnership with cluster schools.

We have also spent some of the allocated money on purchasing new playground equipment for the playground leaders to use to set up and organise games and activities for other children during lunch time.

Sports Premium funding has positively impacted our school by enabling us to employ a highly skilled professional coach to deliver high quality PE lessons and sessions to the children. This funding has developed sustainable, high standard sports provision for FEJS for many years to come, through CPD provided to all teachers.

It has allowed us to increase our participation in competitive school sport and we are continuing to see the benefits in the successes of our various teams with some teams winning their respective tournaments.

The funding has enabled the school to develop a greater pupil awareness about the dangers of obesity, smoking and other such activities that undermine pupils' health through incorporating a 'healthy lifestyle' topic into our PE curriculum linked with Science. We aim that this learning and knowledge will help to reduce the risk of many chronic conditions which blight our local community, such as heart disease, stroke, cancer, diabetes, obesity and mental health problems, in later life.

We have been able to run a parent and child exercise class once a week which has been extremely successful. The purpose of the exercise classes is for the parents to spend quality time with their child in the school setting whilst taking part in PE. It is also for parents to develop an understanding of the benefits of exercise and how important it is to a growing child. All children also complete a 'Monday mile' which parents and staff are encouraged to participate in.

More information on the impact of our Sports Premium funding can be found below.

## **Raising attainment using the Sports Premium money – IMPACT**

### **Teacher development and training**

We have put together a programme where class teachers have had the opportunity to teach alongside Mr Neequaye to develop their CPD, in delivering PE lessons, This has given them the opportunity to work with and gain constructive feedback which has helped to build staff confidence in teaching this subject. This has been a fantastic way to ensure that the Sports Premium funding has been able to deliver sustainable benefits.

### **Gifted and talented**

Since we started our Gifted and Talented programme in September 2014 there has been a good progression of children proudly representing our school in competitions. This Gifted and Talented programme has the increased emphasis and value this has given to our school sports teams has resulted in more children than before representing FEJS. This is clearly having a great impact as our placings and results continue to show pleasing improvement.

### **Competitions**

Year on year we are still increasing our attendance at sporting competitions with more teams taking part from the school. Our results in these competitions continue to show improvement, achieving a particularly impressive 1<sup>st</sup> placings in the Buxton and High Peak competitions and 3<sup>rd</sup>/4<sup>th</sup> placings in the Derbyshire finals of Football, Basketball, Sports hall athletics and Quad kids overall. An increasing amount of our children continue to compete for clubs outside of school at a high, competitive level.

### **Personal professional development – Mr Neequaye**

This funding has enabled Mr Neequaye to gain his level 5 certificate for primary school physical education specialism which has enabled him to gain a greater understanding and knowledge of the children's needs when teaching primary physical education and also the understanding of the values and benefits of high quality PE and sport.

Whilst on the course he had the opportunity to learn and teach dance, which has now been included in the FEJS long term PE programme.

Also Mr Neequaye has been able to gain his Level 3 Forest Schools Practitioner Award which means he can now deliver Forest Schools to all the children at FEJS

### **Working with the School Sports Co-ordinators (SSCOs)**

We now have close links with the SSCO's and they come into school and deliver playground leader training with year 5s with the view for the pupils to deliver games and activities at break time and lunch time to other pupils. We are proud to have achieved Gold status for the third year running

### **Extra lunchtime sports club**

These lunchtime sports club are very popular and well attended. They have increased confidence, knowledge and fitness amongst the children who attend as well as raising the profile of sport and fitness in school.

### **After school clubs**

The sports premium funding has enabled FEJS to engage outside providers to deliver a growing number of exciting extra-curricular sports clubs inc. dance and kick boxing to a high standard.
